

PRIMA DONNA'S BABY BREAKS RECORD— TRAVELS 6,000 MILES AT ELEVEN MONTHS

Baby Frederick Namara Toye and his mother, the famous prima donna, now in Paris.

Los Angeles, Cal.—A 6,000-mile journey to join his mother in Paris for his first birthday, is the record-breaking trip to be made by young Frederick Namara Toye, son of Madame Namara Toye, prima donna, formerly Marguerite Banks of this city.

"Come at once," read the cablegram from Paris, received recently by Mrs. W. A. Banks of Hollywood, grandmother of the 11-months-old traveler-to-be.

So Frederick Namara Toye, aged 11 months, started to join his famous mother in the French capital, where she is coaching with Madame Melba.

He will be accompanied by his grandmother and a nurse.
